## FAIRBANKS IN AN ACCIDENT.

Auto in Which He Is Riding Wrecks Politician's Buggy.

Danville, Ill., July 12.—The automobile bearing Vice President Fairbanks and party from this city to Champaign late in the afternoon crashed into a buggy driven by Joseph M. Dougherty, a prominent Democratic politician. The two vehicles came together at a curve in the road and Mr. Dougherty was thrown out and painfully bruised. When the injured man had regained his feet the vice president's party alighted. Mr. Fairbanks approached his victim, smiling and apologizing.

Mr. Dougherty said: "You are Vice President Fairbanks, I believe. My name is Dougherty."

Vice President Fairbanks grasped the outstretched hand, shook it warmly and said:

"Mr. Dougherty, I am very glad to meet you."

Mr. Dougherty also expressed his pleasure at the meeting, but said he would have been better pleased had it taken place under slightly different circumstances. After this friendly colloquy the vice president resumed his journey. Dougherty's injuries are not serious, but his buggy was knocked into a ditch and badly damaged.

## Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are starved nerves. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and strenuous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are lasting.

The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper *The Badge of Honesty*, in a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence.

Every ingredient entering into the world-famed "Golden Medical Discovery" has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement.

The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compound is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure triple-refined glycerine.

"The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing only. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Pierce, Buffalo, N. Y.

## RIGGS ENDS HIS LIFE

MINNEAPOLIS MAN ACCUSED OF MURDER COMMITS SUICIDE AT ELROY, WIS.

## ROBBERY MOTIVE OF CRIME

WISCONSIN WOMAN SLAIN FOR THE MONEY SHE HAD IN HER POSSESSION.

Elroy, Wis., July 12.—Nathan M. Riggs, accused by the Minneapolis police of murdering Miss Millie Ellison of Ellsworth, Wis., for her savings of years, committed suicide at 2:15 o'clock a. m.

After being argued and pleaded with for hours by Chief of Police Doyle of Minneapolis, the police of Elroy arrested Riggs at 1 o'clock p. m.

After his arrest Riggs was allowed to visit his wife and daughter on a farm near here. In the evening Riggs and the officer who accompanied him to the farm returned to this city.

Shortly after midnight the prisoner asked the officer in whose charge he was for permission to go into the closet at the railroad station hotel. This was readily granted, and Riggs was alone.

Without locking the door Riggs sent a bullet into his temple and ended his life.

Where Riggs obtained the revolver with which he ended his life is a mystery. It is suspected that he secured it when he went out into the country, for he carried no firearm when searched by the local police at the time of his arrest.

## ROBBERY THE MOTIVE.

Miss Ellison Murdered for the Money She Possessed.

Minneapolis, July 12.—Robbery is believed to have been the motive of the brutal murder of Miss Millie Ellison of Ellsworth, Wis., who was killed in her room in a local hotel Tuesday. The woman is known to have had over \$2,000 on her person, she having cashed a draft for that amount at one of the banks during the day. When she appeared at the bank to cash the order, which was drawn on an institution in her home town, she was accompanied by a man who closely answers the description of the suspect now under arrest at Elroy.

This man's name is Nathan M. Riggs, a resident of Minneapolis and an employee of the Northwestern Railway company, as a conductor. He met Miss Ellison some ten years ago, when she was employed in a hotel at the end of his run. A brother of the dead woman, who is now here, tells the following story regarding the man under arrest at Elroy:

"My sister sold out her millinery business in Ellsworth with the intention of investing the money in a farm in Washington, which Riggs is said to have claimed he had picked out. It was the understanding of the girl's family that she was on her wedding trip and that she would settle down in her own home on the farm in Washington."

"She took all her money and negotiable papers with her at the time she left home. The amount is variously estimated, but I am positive that she had at least \$3,000 with her and it may have been as much as \$6,000."

It is presumed by the police that Riggs was driven to desperation when the woman arrived in town and insisted that he marry her at once. He knew this to be impossible and he knew equally well that his reputation as a husband, father and citizen would be irretrievably ruined in case she told her story to his family and his employers.

## —CONTEMPLATE AN UPRISING.

Blacks of the Rand Threaten to Go on the War Path.

Johannesburg, Transvaal, July 12.—The disquieting rumors that the blacks of the Rand contemplate an uprising on July 17 are borne out by the fact that native servants have warned their mistresses to retire to places of safety. Similar rumors have been circulated in the Reef, but the police ridicule them. However, much anxiety is expressed.

A paper read at a conference of the Ethiopian church, embodying reports from the various districts, says an uprising has been openly advised.

## Efficient Plague Disinfectant.

Bombay, India, July 12.—Dr. Turner, health officer of Bombay, has successfully demonstrated the extraordinary efficiency of crude petroleum as a plague disinfectant. It is believed that his experiments have materially advanced the prospects of the extermination of the plague.

## ELABORATE PREPARATIONS.

Made by Russian Authorities to Meet Armed Revolt.

St. Petersburg, July 12.—The preparations which the war office has been making at all the principal cities to meet an armed revolutionary movement prove to have been very elaborate. The plans for the defense of Riga have fallen into the hands of the revolutionary paper Mista, which published them. As given, the garrison is divided into three divisions, of two battalions of infantry, half a company of Cossacks and three machine guns each. These are to guard the city from its three open sides, the canal, the dam and the river Dune. Two battalions of infantry, 200 Cossacks and four machine guns constitute the reserve. The commander even designated his successor in the event of himself being killed or incapacitated.

## MUTINEERS SURRENDER.

Rebellious Cavalrymen at Tambov Give Up.

Tambov, July 12.—Both squadrons of the Seventh cavalry, which mutinied July 7, have surrendered.

The mutiny at Tambov was regarded by the Russian authorities as serious, mainly because it was the first outbreak in the cavalry. After killing an infantry officer and a dragoon who were among the loyal troops that had opposed them, the mutinous cavalrymen barricaded themselves in their barracks.

## AGAIN AFTER CHOUKNIN.

Terrorists Repeat Attempt on Life of Russian Black Sea Admiral.

Sebastopol, July 12.—An attempt was made at 1 p. m. to assassinate Vice Admiral Chouknin, commander of the Black Sea fleet. The admiral was wounded and taken to a hospital.

The would-be assassin is a sailor who hid in the bushes and shot at the admiral as he was walking in the garden of his villa. The culprit escaped. The admiral's condition is serious, as the bullet lodged in his lung.

An attempt was made on the life of the admiral Feb. 9 last by a woman.

## FIVE PEOPLE KILLED

## MORE THAN A SCORE OF OTHERS

INJURED IN A WRECK AT MARTINSVALE, N. Y.

Buffalo, N. Y., July 12.—A train of two trolley cars westbound from Lockport on the International railway at night ran into an open switch at a siding just east of Martinsville and crashed into a trolley freight motor and seven freight cars. Five passengers were killed and a score injured, several seriously. The dead are:

John Biltman, motorman, Lockport, N. Y.; Charles T. Hutcheson, negro, Lockport; Mrs. Henry Eutell, Buffalo, and her six-year-old son; unidentified girl.

The most seriously injured are: Theodore Nestman, Buffalo, head and arms injured; Dr. E. A. Wieland, Buffalo, head injured, hand crushed; H. J. Walsh, Buffalo, head cut, arm broken; Mrs. Emma K. Maloney, Buffalo, internal injuries; Mrs. Virginia Sanderson, Buffalo, internal injuries; Mrs. J. D. Heath, Niagara Falls, internal injuries; Lee Johnson, motorman, both legs crushed.

The passenger cars were going at a high rate of speed and the impact was terrific. The foremost car was utterly demolished. The wedge-shaped end of the freight motor cut it in half and the rear car completed the work of destruction. The rear car was badly broken in front, but remained on the tracks.

The switch into the siding was not closed, for the passenger cars thundering along, took the turn and crashed upon the freight engine. There were about forty persons on the two cars and most of them were killed or injured.

## STEAMER HITS BANK

DIAMOND JO LINER QUINCY RUNS ASHORE IN THE DARK NEAR TREMPPEALEAU, WIS.

## TIPS OVER AND CATCHES FIRE

ALL OF THE TWO HUNDRED PASSENGERS SAVED EXCEPTING A LITTLE CHILD.

La Crosse, Wis., July 12.—Nearly all of the 200 passengers on the steamer Quincy of the Diamond Jo line at 10:30 o'clock p. m. narrowly escaped death when the big packet struck a bank in the dark near Trempealeau, Wis., turned half over and then caught fire. It is believed that the majority of the passengers were saved, and only one drowning is definitely known, that of an infant which was washed from its mother's arms.

At 1:20 o'clock a. m. a belated train brought sixty passengers who were on the boat to this city. Accounts given by them of the disaster do not include positive statement as to drownings, but it is believed comparatively few met death.

All communication with the village of Trempealeau is cut off and information relative to the accident to the steamer is obtainable only through the stories told by passengers and meager reports received at the railroad offices.

At about 10:30 o'clock the steamer, plying up river, struck a bank. At the time, it is said, the boat carried no searchlight. One passenger says he saw a baby washed overboard from its mother's arms. The boat was sinking, though not in deep water.

The palatial steamer caught fire immediately after the collision with the bank. Amid a crashing of timbers, with the boat on its side, the life boats were gotten out and the passengers, 200 in number, were taken off before the flames gained any considerable headway.

## Not Known Whether Any Perished.

Whether or not all the passengers were saved it is impossible to ascertain.

Rescue work was effectively done by the colored roustabouts of the craft. When it became apparent that the boat would have to be abandoned, the steamer was forced onto the bank by the powerful engines, the prow literally creeping up the steep bank. Tied to a tree, the burning steamer was held while the roustabouts took people off the stern in boats. Others jumped off into the dark and it was not until half the people were off that the powerful searchlight was put in running order, throwing the scene into bright light.

For the reason that part of the passengers rescued stayed at Trempealeau, some went to Winona, Minn., and others came to La Crosse it is impossible to say whether any are missing.

A message from Trempealeau at 3:15 a. m. from the Burlington agent says that everybody who was on board the Quincy will be saved.

To escape the myriads of insects, the searchlight was turned off, and the pilot, in the dark, mistook a landmark, running aground.

About fifty people are imprisoned on a swampy piece of ground and the steamer Isaac Staples has left La Crosse to rescue them.

## AGAINST MILWAUKEE COMPANY.

Friendly Suit Begun to Secure Distribution of Safety Fund.

Milwaukee, July 12.—In the United States circuit court here, Ira M. Cobe of Chicago and Edward McGraw of San Francisco began a friendly suit against the Milwaukee Mechanics Insurance company to secure a distribution of the company's safety fund of \$1,500,000 among the San Francisco fire sufferers under the direction of the court. The suit is not intended to embarrass the company. The company has operated under the safety fund law in this state and fearing that some of the policyholders in the West might make a scramble for the fund and try to obtain an advantage and preference over others, the court is petitioned to direct the distribution. In this manner it is proposed to protect all policyholders alike. The suit is said to be the first of its kind and will be watched with much interest.

At the office of the company it was also announced that it had been determined to discontinue writing California risks.

## TALKS ON PANAMA CANAL.

Secretary Taft Delivers an Address at Put-In-Bay, O.

Put-In-Bay, O., July 12.—Secretary of War Taft in a speech before the State Bar association, after apologizing for not having selected a legal subject, began an address upon the Panama canal by giving reasons for the selection by the government of the Panama route and explaining the apparent delay in the actual work of excavation. The necessity of improved sanitary conditions being established before the work of construction was actively commenced was strongly emphasized. It was pointed out that the actual excavation was much less of a problem than with what to do with the material when it taken out, much of which had to be carried fifteen miles, requiring the building of over 300 miles of spur tracks. The question of obtaining sufficient labor was shown to be serious, as it had been necessary to employ natives and Chinamen, three of whom do less than an average American workman. The estimated cost of the canal was placed at \$150,000,000 and the time of completion about seven years. The speaker said that the American people are disposed to be in too big a hurry to "have the dirt fly" and that it had been necessary for those in charge to withstand a great deal of political pressure while carrying out the preliminary work.

Mr. Taft spoke without manuscript. His talk was illustrated with a number of official maps.

## BIG PROFITS IN ICE BUSINESS.

Man Who Started With \$600 Cleared \$45,000 the Second Year.

Kansas City, July 12.—Ex-State Senator W. F. Lyons, president of the Central Ice company of this city, gave interesting testimony at the ice trust hearing here. He declared that he had started in business in 1900 with a capital of \$600, had cleared \$45,000 in the following year, and that he now owns a plant valued at \$400,000. Mr. Lyons said that prices ought to be even higher than they are.

Mr. Lyons told of making two advances this season in the price of ice sold to the peddlers on April 1 and on May 1.

"How did you come to raise the price on April 1?" he was asked.

"I heard that the People's Ice company was going to raise the price on that date, so I raised it."

"Why?"

"Well, I am not in the ice business as a philanthropist. I wanted to get all I could for my ice."

The first advance was from 50 cents to \$1 a ton. Later he made an additional raise when he heard that the other companies intended doing so.

Mr. Lyons said he knew of no combination in the ice business. "But it is not necessary this year," he added.

In reply to further questioning Mr. Lyons said the downtown trade ought to be paying \$7 a ton. He admitted the cost of manufacturing ice was about \$1.75 to \$1.85 a ton.

## WOUNDS HIS BROTHER-IN-LAW.

Minister Also Tries to End His Own Life by Cutting His Throat.

Mangum, Okla., July 11.—Rev. J. L. Rea, pastor of the Mangum Christian church, shot and probably fatally wounded George A. Stephens, his brother-in-law, and then cut his own throat. Rea, although badly wounded, may recover.

Rea and his wife had repaired, Mrs. Rea going to the home of her brother on a farm near Mangum. Stephens went to the minister's house and asked for his sister's belongings.

They quarreled and Rea fired at Stephens with a shotgun. Rea formerly lived at Midlothian, Tex. He came here four years ago.

## STRIKER MORTALLY WOUNDED.

Truck Guard Uses a Revolver on His Assaultants.

New York, July 6.—In a fight on East One Hundred and Third street between a number of striking truck-drivers and two guards employed by Buck & Schulman, grocers, against whom a strike was declared, one of the strikers was perhaps mortally wounded. Six union pickets attacked the two guards, one of whom pulled a pistol and shot one of the strikers near the heart, inflicting probably a fatal wound. One of the guards was stabbed.

Several thousand people surrounded the combatants and a big detail of police had to club their way through the crowd.

It is with great effort that the city papers keep the political game before the public these days.

THE trip of the Northwestern Editorial Association has been temporarily postponed owing to a mixup on transportation.

THE Anoka Union is still growling about Senator Nelson, and the gentleman probably doesn't know there is such a paper published.

THE next governor of Minnesota is recuperating at his home in Cass county, and getting in shape to put up one of the most vigorous campaigns the state has yet seen.

THE St. Paul Dispatch thinks it was a hideous moment when a woman in a Minneapolis hotel struck down by a murderous hand and lying to the point of death was asked if she had money enough to go to a hospital for treatment. The woman's ideas of charity were rudely shaken just as she passed to the great beyond.

THE Fourth congressional district which is represented by Fred Stevens, and who is considered one of the ablest of the Minnesota delegation, will begin an opportunity to change to an untied man this year if the wishes of a man by the name of Rogers are heeded. People very seldom discharge a faithful servant to take on one whose qualifications are merely his own assertions and it is a well settled fact that Stevens will succeed himself.

THE Sixth congressional district in its present congressman has a working member who is ever alert to the interests of his constituents and to his district and his achievements and record shows up to his advantage when compared with the balance of the Minnesota delegation. That Mr. Buckman is a hard working member is conceded by all and that he gains results is shown by the public record. There is nothing to be gained by changing to an untied man.

THE government is advertising for bids to be submitted on a site for a public building to be erected in this city and these bids will be opened in Washington on August 7th. Through the efforts of Congressman Buckman it has been made possible for Brainerd to secure this improvement and the people of this city and county are greatly pleased that he was able to secure the appropriation, and at the coming election they will show their appreciation of his work.

## MORE IMPROVEMENT ON BROADWAY

Property Owners on North Broad- way may Petition Council To Extend Paving

## FROM KINDRED TO IVY STREET

Residents on These two Blocks Said to Largely Favor Im- proving it at Once

It is possible that the two blocks on Broadway between Kingwood and Ivy may be macadamized this season. There is a movement on foot among the prop- erty owners to petition the council to have this work done at once. There are also rumors of other improvements to be made along this street in the way of remodeling dwellings and erecting others that will make this street still more attractive. If the work is done it will probably be with a 40 foot roadway, which will give a wide strip on each side, which will be graded and seeded. It is to be hoped the scheme will be carried out.

## MRS. FIRST REAL VACATION.

President Roosevelt Enjoying a Rest From Official Duties.

Oyster Bay, N. Y., July 12.—Presi- dent Roosevelt is enjoying his first real vacation since his occupancy of the White House. In the week and a half he has administered affairs from Sagamore Hill he has had but two visitors, Sir Joseph Ward and Secretary Taft, and these visits were brief.

In conducting the affairs of state by correspondence entirely, the president is required to devote from three to five hours daily to his mail. Secretary Loeb went to Sagamore Hill at 9 o'clock a. m. and did not return until 1:30. In this time the president signed more than 150 commissions, thereby inducting into office many officials in the diplomatic and consular service and a number of postmasters.

Elisha Moors was arrested here be- cause he was trying to impose himself on the villagers as being in charge of the secret service force. He tele- phoned to Sagamore Hill that he would soon be out there and warned local saloonkeepers that he would arrest them as soon as he got his uniform, because of defects in their licenses.

Moore told Squire Franklin that he had been discharged from the navy ten days ago, his last service being on the battleship Kentucky. He said he had a wife and family in Marietta street, Tompkinsville, and if allowed his liberty would go to them. He was sentenced to ten days' imprisonment at Nassau for intoxication.

## The Busy Corner CALE'S DEPARTMENT STORE

## Alterations in the Busy Store.

On account of the rapidly increasing demand for larger stocks of Dry Goods, Ladies' Ready-to-wear Garments, Groceries, Men and Boys' Clothing, Boots and Shoes, we are obliged to make some alterations in our already spacious Department Store, to make room for the immense New York purchases for the fall trade. We realize that the city of Brainerd demands and will be proud of an UP-TO-DATE Department Store such as other cities boast of.

We ask our customers to bear with us, just a little, while we are making these alterations, because, in the end we will serve them so much better. While these alterations are being made we will have an extra lady clerk to help wait upon the people. Great slaughter of prices will be made on all summer goods. They must be sold to make room.

LOOKS LIKE  
BIG MERGER  
Reincorporation of Northern Pacific Express Company Discussed by Railroad Men  
HANDLE HILL ROAD BUSINESS  
Conjectured That New Corporation Will do All Express Business Of Three Merger Roads

St. Paul Dispatch: Speculation is rife among railroad men as to the real meaning of the virtual reincorporation of the Northern Pacific Express company under the new name, Northern Express company.

The opinion is general that it really means a merger of the express business of the three Hill lines, the Great Northern, the Northern Pacific and the Chicago, Burlington & Quincy.

Hitherto, the express business of these three railroad systems has been handled by three different companies, the Great Northern, the Northern Pacific and the Adams Express companies.

It is a matter of common report that the Great Northern and Northern Pacific Express companies have always been owned and controlled by precisely the same interests that own and control the railroads of the same names. The Adams Express company, however, is an old institution that has been and is still managed by other interests than those that control the railroad system for which it handles the express, the Burlington.

The lease that the Adams Express company has on the Burlington express business has not expired, but it is freely intimated in railroad circles that when that lease does expire, it will not be renewed but the business will be handled by an express company owned and controlled by the James J. Hill interests.

If this be really the program and one express company is to take care of the business of all three of the Hill lines, the new concern will certainly handle traffic of immense magnitude.

At present the mileage of the Burlington, together with all its branch lines, is 8,549 miles; that of the Great Northern 6,319 miles, and that of the Northern Pacific 5,810.73 miles, making a total of 20,679.73 miles on all three of the Hill railroad systems.

It may be that the newly incorporated Northern Express company concern will be used to absorb all express trade of these twenty thousand and more miles of railroad.

Said a party connected with the newly formed organization today:

"The old Northern Pacific Express company did not have nearly so large powers as the new company. The old company could not do business along any other lines of railroad than the Northern Pacific. It could not run stage lines or steamboat lines in connection with its business. In fact, the powers of the old corporation were utterly inadequate to meet the requirements of its immense and growing business. The new company has been capitalized at \$5,000,000, just ten times the capitalization of the old, and it has all the powers that are necessary to enable it to take up the business of attending to the express over other lines of railroad. The stockholders are practically the same and the officers are precisely the same."

The officers of the Northern Express company, exactly the same as the corresponding officers of the Northern Pacific Express company, are as follows: President, J. M. Hannaford, second vice president of the Northern Pacific; vice president, J. N. Hill, first vice president of the Northern Pacific; treasurer, C. A. Clark, treasurer of the Northern Pacific; secretary, R. H. Relf, secretary of the Northern Pacific; controller, H. A.

Gray, controller of the Northern Pacific; auditor, E. K. Punnett.

**MAY SERVE INJUNCTION**

**City May be Stopped Crushing Stone at Present Location of Stone Crusher Because of Dust.**

There is possibility that the work of crushing the stone for the macadamizing of Broadway and Kingwood street will be interrupted by legal proceedings. The stone dust from the crusher has been almost unbearable in the houses north of there and it is reported that one family at least will move out and leave the landlord to fight it out with the city. This dust is very penetrating and very destructive to furniture and wearing apparel. Just what, if anything, is done has not been announced but complaints are fierce, and some of the residents of that neighborhood are much disgusted with conditions, which are such that they must keep the house closed tightly, even in the hottest days.

**A Tragic Finish**

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth Melver, of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at H. H. P. Dunn & Co's drug store, Brainerd, Minn. 50c and \$1.00. Trial bottle free.

**I. O. O. F. Installation**

Last night being installation of officers in the Odd Fellows lodge, the Rebekahs gave them a surprise. About ten the door bell rang the guardian came to the door. The Rebekah in waiting and wishes to be admitted. The guardian asked for the password which was ice cream and cake, he reported the same to the Noble Grand, then lodge closed and all were admitted then the installation took place. Mr. M. J. Williams taking the Past Grand chair, Mr. Chas. Risk the Noble Grand chair. After the ceremony M. J. Williams and Chas. Risk received a beautiful bouquet of roses and sweet peas. Then came the social part when the Rebekahs passed ice cream and cake, a few selections of music were played by Miss Pounds. All went home saying they had a very pleasant evening and the gentlemen invited the sisters to call again.

**COMMERCIAL Club MET LAST NIGHT**

**Club had Small Meeting on Account of Heat—Several Matters Were Considered.**

**ATLAS MILL MAY BE MOVED Unless it Receives Better Home Support it May be Removed From Brainerd.**

Last night was the regular meeting of the commercial club. Owing to the extreme heat the members gathered slowly, a number leaving about 9 o'clock before the meeting was called to order. After that a few gathered and discussed several matters of importance but there was no definite action taken.

The question of the Gull Lake reservoir project was up, several communications being read, but no definite action was taken.

The matter of a franchise for a gas plant was not brought up as expected.

The future of the Atlas Mills was up for discussion, it being stated that unless there was better local support given the mill it would be moved away. Geo. Keene made some very pertinent remarks on the general subject of using the product of the home manufactures. He stated that Brainerd Merchants could not handle Brainerd products unless Brainerd consumers would consume them. Business men interested in the upbuilding of Brainerd would smoke foreign made cigars, drink out of town beer and patronize out of town tailors in preference to using home made goods and so long as they did so they could not blame others for doing the same.

The committee on charter commission reported in favor of requesting Judge McClenahan to appoint a charter commission.

Several other matters were talked over in an informal way but no definite action was taken.

Chief Clerk C. C. Kyle states to THE DISPATCH that the shops are in need of 100 more able bodied men. He says they can get many boys and are hiring all that come along, but that they can not get as many men as they need. They want to hire 100 more able bodied men. The tie plant is said also to be hampered by inability to get men to do the work of construction.

**CERTIFICATE OF INCORPORATION**

For the purpose of organizing a corporation under the General Laws of the State of Minnesota, the undersigned certify that they have agreed upon and adopted the following Articles of Incorporation:

**ARTICLE I.**

The name of the corporation shall be BRAINERD HYDRO-ELECTRIC POWER COMPANY. The general nature of the business shall be to establish hydro-electric power stations, in Minnesota and elsewhere, including construction and maintenance of requisite dams, reservoirs, canals and locks, and to erect and maintain necessary poles, lines, conduits, subways and other apparatus for the transmission and distribution of electric current and electric power, and to operate the same and all convenient machinery and other facilities in connection therewith, for the purpose of supplying, furnishing, leasing, distributing and selling electric current and electric power to the public, at proper prices and compensation.

The principal place of transacting the business of the corporation shall be the city of Brainerd, in the county of Crow Wing and state of Minnesota.

**ARTICLE II.**

The time of the commencement of the corporation shall be the 14th day of July, A. D. 1906, and the period of its duration shall be thirty (30) years.

**ARTICLE III.**

The names and place of residence of the incorporators are Judd Wright, William D. McKay, and Horace M. Woolman, all of Brainerd, Minnesota.

**ARTICLE IV.**

The management of the corporation shall be vested in a Board of three (3) Directors, who shall be elected at the annual meeting of the stockholders of the corporation, which shall be held on the second Tuesday in January of each year.

The names and addresses of those composing the Board of Directors until the first election, are Judd Wright, William D. McKay and Horace M. Woolman, all of Brainerd, Minnesota.

**ARTICLE V.**

The amount of capital stock of the corporation shall be Two Hundred Thousand Dollars (\$200,000.00), which shall be paid in, in money or in property, at such times and upon such conditions as shall be determined and signified by the Board of Directors. The capital stock shall be divided into two thousand (2,000) shares of the par value of one hundred dollars (\$100.00) each.

**ARTICLE VI.**

The highest amount of indebtedness or liability to which the corporation shall at any time be subject, is the sum of two hundred fifty thousand dollars (\$250,000.00.)

**ARTICLE VII.**

Without in any particular limiting any of the objects and powers of the corporation, it is hereby expressly declared and provided that the corporation shall have power to issue bonds or other obligations, in payment for property purchased or acquired by it, or for any other object in and about its business; to mortgage or pledge any stocks, bonds or other obligations, or any property which may be acquired by it, to secure any bonds or other obligations by it issued or incurred; to guarantee any dividends or its bonds or contracts of any kind or description; and in carrying on its business, or for the purpose of furthering any of its objects, to do and all other acts and things and to exercise any and all other powers which such a corporation may exercise under existing laws or under laws that may hereafter be enacted.

**ARTICLE VIII.**

Subject always to the by-laws made by the stockholders, the Board of Directors may make by-laws, and from time to time, may alter, amend or repeal any or all by-laws by the Board of Directors so made, altered or amended; but any or all by-laws made by the Board of Directors may be altered or repealed by the stockholders at any annual meeting, or at any special meeting, provided notice of such proposed alteration or repeal be included in the notice of meeting.

**ARTICLE IX.**

The officers of the corporation shall be those of President, Vice President, Secretary, Treasurer and such other offices as may or shall, from time to time, be created by the Board of Directors. Any two of such offices, excepting those of President and Vice President may be held by the same person. Any vacancy occurring in the Board of Directors or vacancy occurring in any of the offices, may be filled by the Board of Directors, and the persons so chosen by said Board to fill such vacancies shall hold office until their successors be elected and qualified.

In testimony Whereof said incorporators, do hereto, subscribe their names this 5th day of July, A. D. 1906.

## HOSTILITIES RENEWED

TROOPS OF SALVADOR AND GUATEMALA AGAIN INDULGE IN BORDER WARFARE.

### ORDERED BACK TO HIS POST

MINISTER COMES SENT TO GUATEMALA CITY TO ASSIST IN SETTLING TROUBLE.

Washington, July 12.—Hostilities between Salvador and Guatemala have broken out anew on the border between these countries, where peace was supposed to have been established pending a settlement of the trouble between the two countries. Leslie M. Combs, the American minister to Guatemala, who was on his way to the United States to assist in settling the difficulties between Salvador and Guatemala, has been ordered back to Guatemala city from Champerico, Guatemala, where he was reached by cable.

Mr. Combs will remain in the Guatemalan capital to keep the United States advised concerning the trouble and to protect American interests. Salvadoreans and Guatemalan troops have been massed near the common boundary of the two countries for some time and a serious clash was expected, but a temporary armistice seemed to have been agreed upon and Salvador announced that P. R. Pacus had been named as a special envoy to Washington for the purpose of making representations to the American government concerning Salvador's position. John Jenkins, the American consul general at San Salvador, was to accompany Mr. Pacus to this country.

Salvador's alleged activity in aiding the revolutions in Guatemala caused the latter to protest to the United States and Mexico and resulted in representations to Salvador by those two countries. As soon as the position of the United States was made clear Salvador announced that Mr. Pacus would come to Washington to explain the situation, and Guatemala indicated a willingness to have the United States act as mediator.

Reassuring reports reached the state department concerning the internal conditions in Guatemala and it was believed until now that President

Cabrera had put down the revolution and that the row with Salvador would soon be amicably settled.

### SAYS HE KILLED MARCUM.

Curtis Jett Exonerates White, Hargis and Callahan.

Beattyville, Ky., July 12.—Curtis Jett took the witness stand in the afternoon in the trial of Hargis and Callahan on the charge of murdering Lawyer Marcum, admitted the assassination of Marcum and told the manner in which the crime was committed.

"Mr. Marcum had prosecuted me in several cases and was my bitter enemy and I am the man who killed him," said Jett. He told of the assassination, tallying with the description given by B. J. Ewen. Jett said he had not conferred with White in regard to the killing. The pistol he used, he said, was his own and had been owned by him several months.

He told the attorneys in the morning that Sheriff Callahan had given it to him. The defendants helped to defend him in his previous trial. He did not know but thought they had paid his attorneys' fees. He suddenly lost his memory at the most crucial moments and could tell nothing of his or White's actions preceding or following the murder. Jett did not remember seeing White in the courthouse at all and as far as he is concerned White is perfectly innocent.

That Jett has had some marvelous change of heart is apparent, but the reason may be found in the statement of Commonwealth's Attorney Adams, who said that Jett had been drinking and that another attempt will be made to get him to repeat his confession.

Tom White followed Jett on the stand and upon refusing to answer any questions was sent to jail.

### REPLIES TO TAFT'S SPEECH.

Judge Parker Takes Exception to Secretary's Statements.

New York, July 12.—Former Judge Alton B. Parker in a statement just given out takes issue with some of the utterances of Secretary of War Taft in the speech delivered at Greensboro, N. C., by Mr. Taft last Monday. Judge Parker declares that the secretary in his speech sought to have the public draw the inference that the recent prosecutions of alleged illegal combinations are due to new statutes. To this Judge Parker takes exception and to support his contention he quotes from his letter of acceptance and a speech subsequently delivered during the last part of the campaign. In both the speech and the letter Judge Parker is quoted as saying that the laws then on the statute books were entirely adequate if enforced.

### IN THROES OF SERIOUS CRISIS.

British Cabinet Split in Twain Over Naval Programme.

London, July 12.—The Express says the cabinet is in the throes of a serious crisis, "split in twain over the vital question whether the navy shall be maintained in a condition of invulnerable efficiency, or shall be weakened considerably and several nations permitted to outdistance us in the race for naval supremacy."

The paper points out that some days ago, the cabinet decided to reduce this year's shipbuilding programme, abandoning one of the two battleships of the Dreadnaught class, which it was originally intended to lay down in the autumn. Three or four members of the cabinet, it is asserted, expressed themselves as "opposed to this most dangerous economy." Then came protests from the board of admiralty experts, who threatened to resign if the cabinet persisted.

At the meeting on Tuesday there was a prolonged discussion, but the majority stood steadfast for the reduction. The protest, however, had the effect of postponing consideration of the naval estimates until July 27.

### THAW'S ATTITUDE CHANGES.

First Anxious to Talk and Then Declines to Do So.

New York, July 12.—Harry K. Thaw's attitude toward the press and the public underwent a striking change between morning and evening. Immediately after breakfast he secured permission to have a delegation of newspaper men brought to him at the Tombs prison, telling them after an interview that to talk with any one besides the lawyers, doctors and prison officials, was "like getting a whiff of fresh air from the outside world."

In the afternoon it was different. When the newspaper men sent Thaw a note asking if he wished to add anything to his formal statement of Tuesday he sent a reply which said:

"I have said all that I wish to say. In future I shall be guided by the advice of my counsel."

The will of Stanford White, for whose murder Thaw is awaiting trial, has been filed for probate. The widow, Mrs. Bessie S. White, is named as executrix, but the value of the estate is not given. The petition for probate states that White left no real estate and that the value of the personal property is not known.

Chicago, July 12.—The Western Passenger association gave recognition to the homecoming of W. J. Bryan by deciding on excursion rates for August. Special rates to New York and return will be in force for the week

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedial. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
